

## WATER STORAGE

# UZIMA

## D-Prep Blue Water Bag

Your bug-out bag isn't complete without it. The D-Prep is a tough-as-nails, collapsible 10L water bag that's ready for anything. Because when things go sideways, water shouldn't be another worry.

## Key Features

- ⦿ Printed instructions on the bag mean no fumbling, no guess-work—just fast, reliable water storage when seconds count.
- ⦿ Folds flat to disappear in your go-bag, but holds 10 liters when you need it. Space is everything, after all.

### How To Use:

1. Unfold the D-Prep bag from its compact, flat state.
2. Fill the bag with up to 10 liters of water from a freshwater source. Use the fill-line indicator on the side as a guide.
3. Screw the lid securely onto the nozzle to prevent leaks.
4. Set the bag on a table or flat surface, or carry it using the reinforced handle.
5. After use, rinse thoroughly and ensure the bag is completely dry inside and out before folding and storing to keep it ready for future use.

## Why Choose the Uzima D-Prep?

**Ready When You Are** — From wildfires to power outages, the D-Prep fits seamlessly into your emergency plan. Its collapsible design means it takes up virtually no space in bug-out bags, vehicles, or home emergency bins. When you need it, it's ready to deploy instantly—no pumps, no tools, no problem.

**No Guesswork, Just Action** — In a high-stress scenario, clarity is king. That's why we printed the instructions right on the bag. It's an intuitive, no-fuss system that ensures anyone can use it effectively, even under pressure. It's so straightforward, it's trusted by global disaster response teams who operate across language barriers.

**Built for the Long Haul** — Don't mistake its light weight for weakness. The D-Prep is built with reinforced seams and from puncture-resistant, BPA-free plastic. It's tough enough for the harshest environments and safe for long-term water storage. Plus, it's reusable and upgrade-ready, compatible with Uzima filtration systems for when you need to purify your source.
